Annotated Sheet No. 6/6 Showing Proposed Change

## **AMENDMENTS TO THE DRAWINGS**

Figure 9 has been amended as indicated on the attached annotated drawing sheet. No new matter has been added. The Examiner is respectfully requested to consider and accept the foregoing amendments to the drawings.

## **REJECTIONS UNDER 35 U.S.C. § 103**

Claims 1-7, 11-14, 16-17, 21-22 and 30-31 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over Dozier (U.S. Pat. No. 3,770,878) in view of Kobler (U.S. Pat. No. 4,913,673). This rejection is respectfully traversed, particularly in view of the amendments to the claims. Applicants respectfully request that the Examiner reconsider and withdraw the foregoing rejections.

Claims 1 and 16 have been cancelled, without prejudice.

Claim 7 has been amended and is believed to be allowable. In particular, claim 7 now recites, *inter alia*, a hermetic terminal assembly comprising a dielectric retainer where the retainer is “located adjacent to the interior surface of the bottom portion of the body.” Dozier, either alone or in combination with Kobler, does not teach or suggest such a device. Dozier discloses a hermetic terminal assembly including sleeve inserts 17 disposed within the sleeves 5 of the body 1. The inserts, however, are not adjacent to the interior surface of the cup-shaped body, as claimed.

Consequently, Applicants respectfully submit that claim 7, and claims 8-15 which depend directly or indirectly from claim 7, are patentable and in condition for allowance.

New independent claims 32 and 34 have been added and are believed to be allowable over the art. Claims 2-6, 30, 31 and 33 ultimately depend from new claim 32

and claims 17-19, 21, 22 and 35 ultimately depend from new claim 34. These claims, too, are believed to be in condition for allowance.

**CONCLUSION**

It is believed that all of the stated grounds of rejection have been properly traversed, accommodated, or rendered moot. Applicant therefore respectfully requests that the Examiner reconsider and withdraw all presently outstanding rejections. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
